FINAL ACTION

Applicant's amendment of 3-12-09 has been fully considered. The amended claims have overcome the previous rejections of 112/1st and 2nd paragraphs, and said rejections are now withdrawn. However, no terminal disclaimer has been filed, and thus, the previous rejection of obviousness-type double patenting remains outstanding.

Claims 18-21 and 23 are cancelled.

Claims 1-17, 22 and 24-26 are pending.

Double Patenting

The **nonstatutory double patenting** rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

1. Claims 1-17, 22, 24 and 26 remain provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-24 of copending Application No. **10/ 559,328**. Although the conflicting claims are not identical, they are not patentably distinct from each other because the instant formula I is a position isomer of the formula I of the copending application 10/ 559,328 since the two formulae only differs at the point of attachment on the *pyrazolyl* ring. That is, the pyrazolyl ring is attached at the 4-position in the instant case whereas it is attached at the 3-position in the copending case.

Compounds that are position isomers are not deemed patentably distinct absent evidence of superior, unexpected results. See **In re Crounse** 150 USPQ 554; **Ex parte Engelhardt** 208 USPQ 343 regarding position isomerism. There is ample legal precedent for the proposition that position isomers are prima facie obvious without a teaching to modify.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Claim Objections

2. Claim 25 remains objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim must refer to preceding claims in the alternative language. See MPEP § 608.01(n). Accordingly, the claim 25 has not been further treated on the merits.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1624

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
